PROJECTS

Resify - AI-Powered Resume Builder | [GitHub](#)

Flutter, Dart, Google Gemini API, SQLite, Riverpod

- Integrated the Google Gemini API for AI-driven resume content generation and formatting
- Built an offline-ready editing suite with SQLite storage, Riverpod state management, and one-click PDF export

DistriGo - Distributor CRM & Management App | Client Project

Flutter, Dart, Firebase, Google Sheets API, Google Maps API, REST API

- Actively deployed for a live distributor business — built role-based Admin and User panels with Google Sheets lead import, GPS-tracked visit logging, and real-time order management with PDF generation
- Engineered end-to-end delivery tracking (Pending → In Transit → Delivered) with Firebase Cloud Messaging notifications, auto stock deduction on order placement, and multi-format daily/monthly report exports

Xpanse - Personal Finance Management App | [GitHub](#)

Flutter, Dart, Firebase Auth, Cloud Firestore, Riverpod

- Built secure user authentication and real-time data sync using Firebase Auth and Cloud Firestore
- Implemented Riverpod state management for transaction logging and portfolio performance visualization

Wallora - Premium Wallpaper App | [GitHub](#)

Flutter, Dart, Firebase Auth, Cloud Storage, Riverpod

- Developed user-facing app with search, favorites, and one-tap wallpaper setting backed by Firebase Cloud Storage
- Built a secure Admin Dashboard for complete real-time management of the wallpaper collection

PROFESSIONAL EXPERIENCE

Frontend Development Intern | eAirWeb TechnologyMay 2025 - June 2025

- Gained hands-on frontend development experience by building responsive, cross-browser-compatible user interfaces using HTML5, CSS3, and JavaScript while collaborating with the development team to implement modern UI designs.
