PROJECTS

DistriGo — Distributor CRM & Order Management System *(Live Client Project)*

Flutter, Dart, Firebase, Google Sheets API, Google Maps API, REST API

- Built and deployed a production CRM system actively used by a real distribution business, featuring role-based Admin and User panels
- Implemented GPS-tracked visit logging, Google Sheets lead import, and real-time order management with PDF report generation
- Engineered end-to-end delivery tracking (Pending to In Transit to Delivered) with Firebase Cloud Messaging push notifications and automatic stock deduction

Resify — AI-Powered Resume Builder *(GitHub)*

Flutter, Dart, Google Gemini API, SQLite, Riverpod

- Integrated Google Gemini API to auto-generate structured, ATS-optimized resume content from simple text prompts
- Built an offline-ready multi-step editor with SQLite local storage, Riverpod state management, and native PDF export

Xpanse — Personal Finance Management App *(GitHub)*

Flutter, Dart, Firebase Auth, Cloud Firestore, Riverpod

- Built secure user authentication and real-time data synchronization using Firebase Auth and Cloud Firestore
- Implemented Riverpod state management for transaction logging and portfolio performance visualization

Wallora — Premium Wallpaper App *(GitHub)*

Flutter, Dart, Firebase Auth, Cloud Storage, Riverpod

- Developed a user-facing app with search, favorites, and one-tap wallpaper setting backed by Firebase Cloud Storage
- Built a secure Admin Dashboard for real-time management of the entire wallpaper collection

PROFESSIONAL EXPERIENCE

Frontend Development Intern — eAirWeb Technology

May 2025 - June 2025

- Built responsive, cross-browser-compatible user interfaces using HTML5, CSS3, and JavaScript in collaboration with the development team
